Students: Notice Regarding Collection of Student Data

At the International Science and Technology University, we prioritize the privacy and security of our students. This notice outlines our practices regarding the collection, use, and protection of student data.

Data Collection: Personal information of students is collected. This may include a variety of information, such as, but not limited to, names, contact information, educational history, and academic records. This information is gathered through various means such as application forms, online portals, and direct communications.

Purpose of Collection: The primary purpose of collecting this data is to facilitate the educational experience at Our University. This includes academic administration, course enrollment, assessments, providing support services, and facilitating communication between the university and its students.

Data Use: The collected data is used for administrative purposes, academic record maintenance, providing personalized educational support, and improving university services. We may also use this data to communicate important university updates, events, and opportunities that may interest our students.

Data Sharing: Student data is not shared with third parties without consent, except as required by law or as necessary for academic and administrative purposes. When sharing data with third parties, we ensure the protection of the data through strict confidentiality agreements.

Data Security: We implement robust security measures to protect student data from unauthorized access, alteration, or disclosure. Regular audits and updates to our security systems are conducted to ensure the ongoing safety of student information.

Student Rights: Students have the right to access their personal data, request corrections, and inquire about the use of their data. Requests for access or correction of personal data can be made through designated university channels.

Policy Changes: This notice may be updated periodically to reflect changes in our data collection and use practices. Students will be notified of any significant changes through university communication channels.
